

Chess in Schools Survey

To Chess Federation Officials:

Chess in schools has been rapidly expanding over the last decade. The International Chess Federation (FIDE) supports the development of chess in schools so that it is part of the social and intellectual education for every child.

In order to provide more effective support, we are conducting a worldwide survey to obtain an overview of all the major projects run by the National Federations, Chess in Schools Organisations, Schools, and Private Tutors.

The goal is to gather reliable, first-hand information as a basis to design future strategies to develop chess in schools around the world.

Your participation is very important to us, and your feedback will also help us to build a better understanding of how we can best support the services of Federations, institutes, and clubs who are helping to educate future generations.

The team working on the survey is composed by:

- Jesper Hall (Project Manager)
- Jerry Nash (Secretary)
- Leontxo García
- Dijana Dengler
- Serob Khachatryan
- Maria Zaslavskaya
- Kristine Tanajyan
- Nune Gevorgyan

Thank you in advance for your cooperation!

Best Regards,

Arkady Dvorkovich, FIDE President

Judit Polgár, FIDE Honorary Vice President
